PROFESSIONAL SUMMARY

Third-year B.Tech student in Computer Science and Engineering (AI & ML) at GD Goenka University. Skilled in Python-based data cleaning, exploratory data analysis, SQL, and Power BI dashboard development. Interested in transforming raw data into meaningful business insights and seeking a Data Analyst or BI Analyst internship to solve real-world business problems.

EDUCATION

GD Goenka University

B.Tech in Computer Science and Engineering (AI & ML), CGPA: 9.16/10

Expected 2028

Gurugram, Haryana

Sri Chaitanya College

Intermediate (MPC), Percentage: 93.9%

Hyderabad, India

TECHNICAL SKILLS

Programming: Python

Data Analysis: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA), Matplotlib, Seaborn

Databases: SQL, MySQL

Business Intelligence: Power BI, Dashboard Development, KPI Analysis, Data Visualization

Tools: Git, GitHub, Jupyter Notebook, PyCharm

PROJECTS

Retail Sales Performance & Profitability Analytics

[GitHub Repository](#)

- Developed an end-to-end retail sales analytics project using Python, Pandas, NumPy, and Power BI to analyze sales, profitability, order status, and regional performance.
- Cleaned and validated a synthetic retail dataset, handling duplicate records, missing values, inconsistent categories, and invalid data; documented unresolved sales calculation discrepancies.
- Performed exploratory data analysis to identify sales trends across product categories, regions, sales channels, and monthly periods.
- Built an interactive Power BI dashboard with KPI cards and slicers to explore sales, profit, profit margin, returned orders, and cancelled orders.
- Analyzed approximately 49,975 cleaned records, reporting total sales of INR 586.51 million, total profit of INR 151.50 million, and a profit margin of 25.83%.
- Documented the project workflow, setup instructions, data quality limitations, and findings in a GitHub repository.

PROFESSIONAL DEVELOPMENT

Continuously developing my skills in SQL, Excel, Power BI, and data analytics through hands-on practice and real-world projects.
